

English

After reading and exploring Macbeth, we will continue study the story and write an internal monologue and a balanced argument. We will be discussing the themes in the story, the motives of the characters and the events that occurred.

In Reading, we will look at a wide range of texts and answer questions about them to support our understanding.

RE

We will investigate the concept of salvation and enquire as to how Jesus is important to Christians. Looking at the verb "to lose" we will explore what it means to lose someone or something and consider the different meanings of this word. This will help us understand more about how Christians feel about Jesus.

French

In French we will be looking at 'Me around the world'. We will be identifying French speaking countries and learning about the different festivals in different countries,. We will also be learning how to give information about a character and how to be a global citizen.

Physical Education

In PE we will be learning how to play Tennis. We will also have the chance to strength our bodies and improve our speed and stamina in fitness this term.

Home Learning

Children should continue to complete their homework each week. The completion of this supports their in-class learning and will help prepare us for SATs in May. Please ensure you are encouraging your child to complete this in a timely fashion.

Maths

We have been working extremely hard on perfecting our arithmetic skills in Maths and now we will use these to ace our reasoning skills too! We will look at using our reading and problem solving questions and focus on multi-step problems. We will also have a look at algebra, sequences and shape, space and

Geography

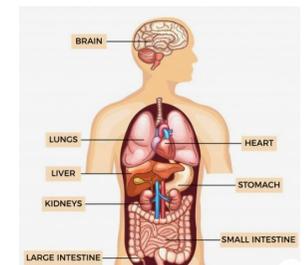

We will be looking at the United Kingdom, the countries that make up the UK and the topographical features in each region. We will then look at the methods of energy production and answer our enquiry question: 'How is land use in the UK dictated by its topography?'

Year 6 Overview

Spring 2

Science

We will be learning about the human body, in particular the respiratory and circulatory systems. We will identify organs that support these systems and understand how they work.

Computing

In Computing, we will be looking at Spreadsheets. We will be looking at how to use these efficiently to be able to sort information and calculate quantities. We will also look at how we can make our own spreadsheets on Excel.

Health and Wellbeing

In Health and Wellbeing we will be focusing on railway safety. This will also be apart of our focus in assemblies next half term. Alongside this, we will be working as a team to nurture and grow our own salad that we planted last term.

Reminder

Keep an eye on our Year 6 page on the website for photo updates!
